

***Notice of Withdrawal from Market
Frequently Asked Questions***

Why is Zelnorm® (tegaserod) being withdrawn from the market (discontinued)? Are there additional health risks that prompted the withdrawal?

This decision to discontinue Zelnorm® (tegaserod) was not made based on product efficacy, safety, or an imposed recall, and has been withdrawn for business reasons.

How long will Zelnorm® (tegaserod) remain available?

Zelnorm® (tegaserod) will remain available in the US marketplace until existing supplies have been depleted. Patients should consult with their healthcare professional regarding alternative treatment options.

What is the status of managed care plans?

We do not anticipate any changes to insurance coverage for Zelnorm® (tegaserod) at this time.

Is this a voluntary removal from the market?

Yes, this is voluntary removal from the market. This decision was not made based on product efficacy, safety, or an imposed recall. The decision to remove Zelnorm® (tegaserod)® from the market is strictly a business decision.

Is there an alternative or replacement for Zelnorm® (tegaserod)?

Alfasigma USA is not replacing Zelnorm® (tegaserod) with another product. Patients should consult with their healthcare professional regarding alternative treatment options.

Is my Zelnorm® (tegaserod) prescription still good (valid)?

Yes. Zelnorm® (tegaserod) prescriptions are still valid.

Can I still take Zelnorm® (tegaserod) since it's been withdrawn?

Yes. Zelnorm® (tegaserod) can continue to be taken after withdrawal notification until supplies are depleted. Patients should consult with their healthcare professional regarding alternative treatment options.

Is there a possibility that Zelnorm® (tegaserod) will be sold to another Company?

At this time, there are no plans to sell Zelnorm® (tegaserod) to another company.

Will the website be updated or removed?

www.myzelnorm.com will be updated to notify patients of the discontinuation. The website will remain active until the end of 2023.
